

Sunil Kumar Verma

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer adept in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in creating seamless user experiences, maintaining responsive web designs, and developing robust APIs. Highly skilled in problem-solving, eager to leverage Generative AI, and quick to learn new technologies.

WORK EXPERIENCE

Globallogic India Pvt. Limited

Software Engineer

April 2022 - July 2024

Job responsibilities:

- Designed and implemented reusable and maintainable React components to ensure efficient development and scalability.
- Utilized Context API for efficient state management, improving data flow consistency across different components.
- Integrated RESTful APIs for seamless communication between the front-end and back-end, ensuring robust data manipulation capabilities.

PROJECTS

1. Todo-App | |

JavaScript | React | Redux | Node.js | Express.js |

MongoDB | RESTful APIs | CSS3 | Responsive Web Design | Git

- Developed efficient server-side APIs using Node.js and Express.js to handle task management operations.
- Implemented and maintained frontend components using React.js and Redux for state management.
- Created optimized MongoDB models and queries to store and retrieve tasks efficiently.
- Ensured seamless frontend and backend integration with RESTful APIs for smooth user interactions.
- Applied responsive web design principles to ensure the app functions well on various devices and screen sizes.

2. Twitter-Clone-2 | |

React | Git | Node.js | Express.js | HTML5 | CSS3 |

Responsive Web Design

- Collaborated with a team of developers to translate project requirements into functional features, focusing on user authentication and profile management.
- Maintained and optimized frontend components using React.js to ensure a responsive and user-friendly interface.
- Ensured seamless integration between frontend and backend components, enhancing user interactions and data consistency.
